

SEED TREATMENT

Guaranteed Analysis:

Proprietary Blend of Poly-Co-Ferment	
Liquid enzyme complex.....	89.4998%
B-Complex	0.0002%
Carbohydrates	0.5000%
Proprietary Blend of Polydimethylsiloxane and non-ionic	
Surfactants	10.0000%

NOTE: Information regarding the contents and levels of metals in this product is available by calling 1-800-946-5545.

Application Rate:

Treat seed at the rate of 5 fluid ounces per 100 pounds of seed.
In furrow treatment use at the rate of 16-32 fluid ounces per acre.

Mixing: Perform a compatibility test for all chemicals used in a separate container prior to mixing. AgPro Systems Seed Treatment is compatible with most herbicides and pesticides. Prior to application, all spray/mixing and application equipment must be cleaned. Carefully observe all cleaning directions on product label. To prevent or minimize foaming, fill tank $\frac{3}{4}$ full of water. AgPro Seed Treatment contains an antifoaming agent. Add pesticides and/or fertilizers as directed by label in following order:

- A) Fertilizers and micronutrients
- B) Dry flowables and dispersing granules
- C) Flowables
- D) Water soluble pesticides
- E) Emulsifiable concentrates

Continue agitation. Continue filling tank and add Seed Treatment and mix for 1-2 minutes with lower than normal agitation. For optimum results spray mixtures containing Seed Treatment should be applied within 36 hours.

Use in conjunction with a good soil test and soil fertility program. AgPro Seed Treatment can be applied in existing spray programs. Always conduct a compatibility test prior to mixing any chemicals
Conditions of Sale: Manufacturer warrants that this material conforms to the chemical description herein and is fit for use as directed. Neither seller nor manufacturer shall be liable for any damages directly or consequently arising from the use of AgPro Systems, Inc. products, therefore buyer acknowledges and assumes all risk from the storage, handling or use of this product.

SHAKE WELL BEFORE USING

CAUTION: Keep Out of Reach of Children
